

RSCCD Child Development Centers

WHAT HAPPENS NOW

Please read the information listed below

- Thank you for considering RSCCD Child Development Centers for your child care needs. Your family will be placed on the eligibility list according to specific criteria and guidelines.
- The waiting period for services is unpredictable and a definite timeframe for your child or children's admission into the program may not be known.
- Although we may have openings throughout the school year, most of our enrollment occurs during each summer and fall.
- Once space becomes available at one of the Child Development Centers, you will be called and a pre-enrollment appointment will be scheduled. Please feel free to call us to check your status and/or to let us know if you have found other services.
- During this waiting period, you are encouraged to contact the local resource and referral agency, Children's Home Society. They also have funding to assist families. They can be reached at 714-543-2273.

Thank you again for your interest in our program and we look forward to serving you in the future.
