CATALOG DESCRIPTION

Applied techniques of embroidered decorative embellishments of surface textures and patterns in creating apparel designs. Incorporation of embroidery software and machinery.

Classification Code	Y
Transfer Code	C-Not transferable
SAM Priority Code	C - Occupational
Repeatability	NR - Non-Repeatable
TOPS Code	1303.00 - Fashion
Topics Course	No
Open Entry/Exit	No
Grading Options	Letter Grade or P/NP

Department Chair Approval Date: 04/17/16 by:Kyla Benson

Divison Chair Approval Date: 04/19/16 by:Andy Gonis

Curriculum and Instruction Council Chair Approval Date:
Last Revision Date:

COURSE OBJECTIVES

Upon completion of this course, students should be able to:

1. Research current embroidery global design trends
2. Operate and maintain embroidery machinery and equipment
3. Use embroidery software to create and digitize designs

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

INTRODUCTION OF DECORATIVE TECHNIQUES - LEC 2 / LAB 3

-Introduction of decorative techniques, historical and cultural background, and visual examples of application of garment.

-Terminology and needed supplies and equipment will be introduced.

-Laboratory time will include demonstrations of the techniques that students will observe and practice on samples.

DESIGN APPLICATION - LEC 2 / LAB 3

-Design application will be discussed and visualized, with emphasis on ethnic style openings, edges, closures, and pockets.

-Terminology and needed supplies and equipment including trims and appliques will be introduced.

-Laboratory time will include design application, demonstration, practice, and discussion regarding design ideas on ethnic projects.

DESIGN NEED TECHNIQUES - LEC 2 / LAB 3

-Techniques will be discussed as applied to design needs in creating individual projects. Practice the decision-making process of applying techniques in creative application of the design elements and principles of design.

-Laboratory time will include practice on the techniques, application, and the principles of the decision making on projects.

CONSTRUCTION DETAIL TECHNIQUES - LEC 2 / LAB 3

-Construction detail techniques of sewing seams, finishes, piping, and stitches.

-Students will complete their projects with an evaluation critique.

MACHINE SET PROCEDURE - LEC 2 / LAB 3

-Threading.

-Types of needles, threads, interfacings, fabrics, tools.

COURSE OBJECTIVES

Upon completion of this course, students should be able to:

1. Identify various types of fabric printing inks and techniques
2. Prepare artwork in a digital format for printing
3. Practice basic screenprinting techniques on fabric

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

INTRODUCTION - LEC 4 HOURS / LAB 6 HOURS

-Introduction of printing techniques, historical and cultural background and visual examples of application on garments.

-Terminology and needed supplies and equipment will be introduced.

-Laboratory time will include demonstration of the techniques that students will observe and practice.

-Review costing techniques.

DESIGN AND CREATIVE APPLICATION - LEC 4 HOURS / LAB 6 HOURS

-Design application will be discussed and visualized with emphasis on ethnic style openings, edges, closures, and pockets.

-Terminology and needed supplies and equipment will be introduced including trims and appliques.

-Laboratory time will include design application, demonstration, practice, and discussion of design ideas.

-Techniques will be discussed as applied to design needs in creating individual projects.

-Practice the decision-making process of applying techniques in creative application of the design elements and principles of design.

DIGITAL PREPARATION - LEC 4 HOURS / LAB 6 HOURS

-Digitize artwork to Adobe computer programs.

-Separate artwork by colors.

-Scale artwork on digital file.

SCREENRPINTING APPLICATION - LEC 4 HOURS / LAB 6 HOURS

-Introduce photo emulsion and various ways to source it.

-Introduce various types of inks and its lasting effects on types of fabrics.

-Discuss various types of screens and mesh sizes.

-Introduction to screenprinting machinery.

-Instruction on how to print out artwork files onto films.

COURSE OBJECTIVES

Students will research the job opportunities and career options for pharmacy technicians.

Students will learn what the licensing and certification requirements are for employment as a pharmacy technician

Students will be able to distinguish between the responsibilities of a pharmacist and those of a pharmacy technician

Students will learn the legal requirements for prescription labeling and will develop the ability to prepare prescription labels using accepted format.

COURSE CONTENT

COURSE AND PROGRAM INTRODUCTION – 1.5 HOURS
Course content, expectations, class organization. Introduction to the trade-generic equivalents list.

DEFINITION OF THE PHARMACY TECHNICIAN'S ROLE – 4.0 HOURS
The responsibilities inherent in the job of a pharmacy technician in inpatient, sterile products, home health, ambulatory care, and specialty pharmacy settings. How the role of the pharmacy technician has evolved. The current and future role of the pharmacy settings. The current and future role of the pharmacy technician in providing pharmaceutical care. Requirements to obtain a pharmacy technician license and certification. Job opportunities available for pharmacy technicians.

PHARMACY TECHNICIAN TRAINING – 3.5 HOURS
The certificate and degree options available at SAC, including course sequencing and recommended electives. How the SAC Pharmacy Technology courses relate to the Board of Pharmacy licensing requirements and the ASHP outcome competencies for pharmacy technicians. Differences between the Pharmacy Technology curriculum and pharmacy school prerequisites.

SKILLS AND CHARACTERISTICS – 3.0 HOURS
The types of knowledge, technical skills, physical abilities, and personal characteristics necessary for a successful career as a pharmacy technician.

ETHICS – 2.0 HOURS
The basic Rights of the patient, as they relate to medication delivery and administration. The ethics involved in confidentiality (HIPAA), access to health care, and right-to-life issues. Consequences of unethical and illegal activities, including drug diversion and substance abuse.

COURSE <u>OBJECTIVES</u>

At the conclusion of this course, the student should be able to:

1. Explain the nature and purpose of generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRS) and how they are used to measure and value financial transactions and how they affect the four basic financial statements.

2. Illustrate how the underlying measurement concepts and valuation differ under generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRS).

3. Explain the content, form, and purpose of the basic financial statements (including footnotes) and the annual report as well as prepare the financial statements in accordance with GAAP.

4. Prepare the Statement of Cash Flows and explain the importance of operating, investing and financing activities reported.

5. Distinguish between cash basis and accrual basis accounting and their impact on the financial statements, including the revenue recognition and matching principles.

6. Explain the nature of current assets and related issues, including the

Curriculum and Instruction Council Chair Approval Date: 11/19/2012 by:Anh-Phuong Tran
Last Revision Date: 03/03/2016

COURSE OBJECTIVES

Students will be able to:

- Identify various jazz aspects of melody, texture, form, harmony, rhythm and instrumentation in specific examples of jazz music.
- Analyze characteristics of specific jazz recordings that were directly influenced by the African and early African American musical traditions.
- Explain how the social conditions and music of New Orleans from the beginning of the 20th century influenced the earliest jazz music.
- Discuss the relationship between the social climate of the "roaring twenties" and the specific musical elements of the recorded jazz music from that era.
- Differentiate the styles of various bands and arrangers in the swing era by identifying specific characteristics.
- Explain how the sociopolitical situations during the 1940s and 1950s influenced bebop and cool and their unique treatments of harmony, melody, rhythm and improvisation.
- Describe and classify characteristics of the funky, avant garde, hard bop and modal jazz movements.
- Discuss how American race relations, the emerging youth culture and the political unrest of the 1960s influenced the new jazz styles.
- Illustrate how contemporary jazz styles connect aesthetically to past traditions as well as popular culture of rock music through specific examples.

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

Students must learn numerous concepts and descriptive musical vocabulary relating to music in general and to the specific genres of jazz. They then must expound upon these concepts in a written format in order to critically analyze music that is studied throughout the semester.

1. 3 lec. Overview of jazz history. Students learn to identify general musical characteristics of the main eras

 32 hours

STANDARDS OF ACHIEVEMENT
List graded activities.

1. Short paper on current MIDI innovation or application. Research for paper should be done using current periodicals in the area of electronic music. Students must make a brief oral presentation of their report.
2. Four projects which demonstrate student's understanding of concepts covered in class. Projects must synthesize information on sequencing, recording, and arranging, and must reflect a sound and preplanned compositional approach.
3. Assemblage of one demonstration tape which incorporates excerpts from the student's recorded projects. Tape should demonstrate good recording technique and good skill of aural presentation.

(Point scale or other measurement.)
Written report and oral presentation - 60 points
Projects (4 @ 100 pts. each) - 400 points
Demonstration tape - 40 points
TOTAL 500 points

GRADING SCALE
450 - 500 = A
400 - 449 = B
350 - 399 = C
300 - 349 = D
  0 - 299 = F

How will student learning be assessed? (Multiple measures must be used.)

Written report that predicts project outcome, evaluated by instructor.
Oral description of project, critiqued by instructor.
Presentation of projects before class, evaluated by instructor and critiqued by peers.
Completion of specific laboratory activities and skill levels, evaluated by instructor.
Quizzes on specific technical concepts of recording, evaluated by instructor.

Curriculum and Instruction Council Chair Approval Date: ~~11/19/2012 by:Anh Phuong Tran~~
Last Revision Date: 03/03/2016

COURSE OBJECTIVES

Students will be able to:

- Interpret and perform notes on the staff using idiomatic rhythmic phrases.,
- Interpret musical passages correctly by adhering to musical symbols and by following the directions of musical terminology.
- Play major and minor triads as well as dominant seventh chords in all twelve keys.
- Perform and transpose melodies with simple accompaniment patterns using I-V7-I.
- Perform repertoire with a variety of left hand rhythmic chord patterns.
- Employ the common tone principle when voicing chord progressions that incorporate the ii chord.
- Harmonize using secondary dominant chords and more syncopated rhythms.
- Improvise in the blues form using I7, IV7 and V7 chords.

1. Listening and Speaking - Students will demonstrate comprehension of music performance issues through their participation in group discussions. They wiil give clear oral critique of own performance using technical and aesthetic criteria covered in class.   2. Reading and Writing - Students wiil express in written form elements of musicality and good string technique as heard and seen in rehearsal. They will also express their feeling about their musical experience using the vocabulary of the discipline. Students express in written form their observations on a music concert by comparing what they have learned to be correct interpretation to what they hear at the performance.   1. Creative Thinking - Students will perform a personal interpretation of musical selections by considering the directions on the score and elements of technique and style appropriate to the piece.   2. Critical Thinking - Students will perform music by demonstrating in sound, the mental concepts derived from reading the score. They will also demonstrate their knowledge of various terms and concepts relating to music theory and string technique by completing practical problems on written tests.   1. Information Competency - Not Applicable   1. Social - Students will interact with individuals within a group while respecting differences and maintaining an awareness of others opinions, feelings and aesthetic values.   1. Creative Expression - Students will perform pieces studied in class with accuracy, personal interpretation and a sense of creative expression.   2. Aesthetic Appreciation - Students will be able to synthesize matters of aesthetics and achieve their own sense of artistic expression by applying the instructor's lectures and demonstrations of musical concepts to individual practice and ensemble performance.

WHAT LEARNING ACTIVITIES OR ASSIGNMENTS ARE REQUIRED OUTSIDE OF CLASS?

List activities and hours for each. (Must include reading and writing activities.)~~List of graded activities:Four performance tests.Midterm (written).Final (Written).Weekly text exercises.Weekly scale assignments.Live concert attendance with written critique.Read and perform notes in appropriate clef.Understand and perform assigned rhythms.Understand and perform assigned scales.Correctly interprete dynamic markings, tempo indications, articulation markings, and other symbols.Transpose and sight read.Ensemble Playing.~~

Reading Text: 8 hours
Instrument Practicing: 16 hours
Attending a live performance and concert report: 8 hours
TOTAL 32 hours

STANDARDS OF ACHIEVEMENT
List graded activities.

Skills students must acquire:
Read and perform notes in appropriate clef.
Correctly interpret and perform intermediate rhythms.
Correctly interpret a wide range of dynamic markings, tempo indications, articulation markings, and other musical symbols.
Transpose and sight read at intermediate level.
Ensemble playing.

These skills will be tested on four performance tests (15 points for each of the first three and 20 points for the final test).

Written midtern (15 points) and written final (15 points) covering concepts of pitch reading, rhythmic interpretation, understanding of musical terms and symbols, and music theory concepts.

Concert Review (5 points). Students must attend a concert of live instrumental music and write a critique. The student will analyze those elements of music and instrumental technique that have been studied.

Performance test 1   15 pts.
Performance test 2   15 pts.
Performance test 3   15 pts.
Performance test 4   20 pts.
Midterm   15 pts.
Final   15 pts.
Concert Critique   5 pts.
          TOTAL 100 pts.

GRADING SCALE
90-100 = A
80-89 = B
70-79 = C

Last Revision Date: 03/04/2016

COURSE OBJECTIVES

Students will be able to:

- Incorporate intermediate level bowing techniques into performance of repertoire.
- Perform scales that span an octave with proper fingering and bowing technique.
- Perform intermediate exercises and simple pieces in small group and large group performance.
- Interpret intermediate selections with running 8th note and 16th note patterns in two and three-part harmony.
- Assimilate the directions of intermediate level musical selections and then present as a solo performance.
- Interpret intermediate music notation with proper attention paid to instrumental technique, fingering, and rhythm.

-

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

2 **lec. 2 lab** Review beginning level techniques and introduction to intermediate musical concepts. Students begin rehearsing technical selections and assigned repertoire appropriate for an intermediate level. Intermediate level bowing techniques introduced.

2. 2 lec. 2 lab. Intermediate fingering and bowing techniques for notes for octave scales, introduction of flat scales and 2nd position.

3. **2 lec. 2 lab.** Intermediate ensemble techniques.

Students learn intermediate selections with 2 and 3 part harmony. Introduction of running 8th note patterns, 8th rests.

4. **5 lec. 5 lab.** Intermediate repertoire.

Students learn and rehearse assigned intermediate selections for ensemble and solo performance.

5. **3 lec. 3 lab.** Continued assignment of repertoirewith more advanced technique.

Students continue learning repertoire for ensemble playing with an emphasis of on more advanced technical playing including; additional scales and 16th note patterns.

6. **2 lec. 2 lab.** Small ensemble and solo repertoire.
Students practice and prepare for final performance exams, in groups and solo performance.

Lecture sessions: Instructor introduces and/or demonstrates each new technique or concept in relation to music notation, technique, fingering, rhythm notation and music theory. Instructor also leads class discussions on aspects of ensemble playing, solo playing and theory.

Lab sessions: Lab sessions will consist of individual and small group rehearsal of assigned materials.

Upon completion of this course, students will be able to:

1. Demonstrate fashion figure proportions and poses, fabric patterns, textures, design and construction details through the use of elementary trade sketching techniques.
2. Distinguish between flat garment designs and 2-dimensional garment draping on a fashion figure.
3. Apply effectively the mediums of pencil and marking pen to enhance fashion sketches.
4. Demonstrate the steps involved in the use of computer applications in fabric and apparel design.
5. Estimate/Projection of apparel design products.
6. Develop an apparel line list.
7. State benefits of computer applications in textile design.
8. Use Adobe Illustrator to create garment silhouettes in colors and patterns.
9. Use PhotoShop to customize garment silhouettes using layers and patterns.
10. Create a portfolio page demonstrating illustration skills learned in Adobe Illustrator and PhotoShop.

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

INTRODUCTION TO SKETCHING - LEC 2.0 / LAB 4.0 HOURS
Course requirements. Materials and supplies. Introduction of basic body proportions and tool usage.

DEVELOP A FASHION PROPORTIONED CROQUIS - LEC 4.0 / LAB 8.0 HOURS
Drawing introduction and practice of the proportioned body in movement planes, joints and muscles to flesh-out of poised figure.

TRADE FLAT SKETCH - LEC 6.0 / LAB 8.0 HOURS
How to accurately sketch and name garment design style variation of: collars and ruffles, sleeves and cuffs, openings and edges, tops and dresses, skirts and pants, jackets and outfits.

COURSE OBJECTIVES

Upon completion of this course, students will be able to:

1. Demonstrate the techniques of pattern draping manipulation, and then apply these techniques to create a variety of new styles.
2. Explain the importance of the fabric grain line and the center, front, and back torso to execute pattern-draping techniques.
3. Adapt pattern manipulation into an experimental design.

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

INTRODUCTION - LEC 2.5 / LAB 2.5 HRS
Equipment, materials, and assignments.

PANTS BASICS - LEC 7.5 / LAB 7.5 HRS
Techniques of pants pattern, styling, and fitting.

JACKET PATTERN TECHNIQUES - LEC 15.0 / LAB 15.0 HRS
Execution of pattern techniques of second-layer garments including lapel, lining, and facings of blazers, coats, and capes.
Advanced style line changes practices.

PRODUCTION PATTERN TECHNIQUES - LEC 5.0 / LAB 5.0 HRS
Practice methods of balancing and truing a pattern.
Methods of transferring pattern, cutting, marking, notches, and identification.
Presentation of complete production pattern package.

PATTERN ADAPTATIONS TO SPECIALIZED FABRICATIONS; COMPUTER ASSIGNMENT - LEC 10.0

COURSE CONTENT(Include major topics **OBJECTIVES**

Upon successful completion of the course

, time required, and what the student is expected to learn.)

Requires students to analyze statements for validity, and solve problems related to selected diseases and their relationship to occupation. Requires student to research and analyze assigned reading material to arrive at correct responses to questions and statements on research papers. Requires the student to apply the solutions to the problems encountered in the practice of occupational therapy when working with selected diseases. Allow students to independently expand depth and breadth of OTA fundamental knowledge.

- Introduction to the course **LEC 1 hour**

- student will be able to:

1. Describe the rationale for understanding the study of disease in preparation for practice as an OTA.

2. Define and differentiate the following terms: etiology, prognosis, prevention, pathophysiology, medical management, precautions, and lifestyle redesign.

3. Utilize the above terms to develop a schema in the study of disease and its relationship to work as an OTA.

4. Demonstrate an understanding of the role of nutrition in a healthy lifestyle.

5. Demonstrate an understanding of diseases related to nutrition.

6. Define and differentiate diseases of childhood that are commonly seen in OT practice.

7. Demonstrate an understanding of psychiatric disorders according to the developed schema.

Curriculum and Instruction Council Chair Approval Date: ~~08/29/2011 by:Anh-Phuong Tran~~
Last Revision Date: 05/12/2011

COURSE <u>OBJECTIVES</u>

1. <u>Integrate vocabulary, grammar, and culture to give oral presentations with enhanced fluency.</u>
2. <u>Improve communication skills through discussions of a variety of topics, such as customs, arts, history, sports, politics, literature, and current events.</u>
3. <u>Apply knowledge of vocabulary, grammar, idiomatic expressions, and culture to synthesize, analyze, evaluate and derive meaning of implicit and explicit written material at the beginning to intermediate level.</u>
4. <u>Write essays with appropriate syntax, grammar, paragraph structure, and the use of clear topic sentences with supporting detail.</u>

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

The listening, speaking, reading and writing components of language acquisition require critical thinking skills, such as comparison and contrast, synthesis, analysis, and evaluation.

Culture (8 hours)
Students will read about French culture in Europe and America. They will grow in awareness and appreciation of French life, art, and culture.
Students will review the present indicative, stem-changing verbs and irregular verbs.

Religion (3 hours)
Students will learn about the different religions in the French speaking communities and about family traditions and practices.
Students will integrate grammar including usage of the infinitive, future, conditional, the use of direct and indirect objects and the use of <u>etre.</u>

Customs and Traditions (5 hours)
Students will read about customs and traditions in the French speaking communities and socio-economic issues affecting France and other French-speaking societies.
Students will review the use of the subjunctive conjugations and forms.

Below 60% = F

The instructor will indicate the weighting of graded activities on his/her individual course overview.

Curriculum and Instruction Council Chair Approval Date: 08/29/2011 by:Anh Phuong Tran
Last Revision Date: 05/12/2011

COURSE OBJECTIVES

1. Develop ability to understand native speakers without resorting to translation and to respond appropriately with greater length and complexity.
2. Write compositions using appropriate structure with grammatical accuracy and relevant content.
3. Incorporate advanced vocabulary to increase fluency based on selected readings and other assignments.
4. Analyze reading materials at the intermediate level that include idiomatic expressions, metaphors, similies, and implied meaning.

COURSE CONTENT
(Include major topics of the course, time required, and what the student is expected to learn.)

Language acquisition necessarily requires critical thinking skills in all of its applications (i.e., knowledge, comprehension, application, analysis, synthesis and evaluation). This plan of instruction requires the student to internalize the sound system and structure of the language and then reproduce language responses to linguistic, structural and cultural situations.

1. French daily life (10 hours)
The students will learn about the French culture through reading materials that will focus on everyday life.

2. Socio-economic conflicts (5 hours)
The students will learn about social, economic, political, and cultural forces at work in the French speaking world.

3. Social life (10 hours)
The students will use French to obtain information about real events as well as other subjects that relate to other areas of academic interest.

1. Please write a brief narrative statement as to why this Certificate/Program should be added or revised.

This new certificate is part of an articulation agreement between Credit and Non-Credit. The courses required for this certificate are basic courses in the Pharmacy Technology Program at SAC. In offering these courses to the non-credit student, the student has the opportunity to take the listed courses with the credit class and instructor. If the student passes the course, the student has the option of converting the non-credit course to a credit course and satisfying the credit requirement on the credit side. The student will not need to register on the credit side for these two courses, consequently no tuition will be required.

Offering these courses on the non-credit side will give the non-credit student an opportunity to see if the pharmacy field is something that the student would like to make a career of it. Pharmacy is a growing field in our society which pays very well. This program contributes to the school's goal of workforce development.

2. Have all affected departments been notified of this addition/revision and/or consulted? Yes __X__ No _____

SANTA ANA COLLEGE

PROGRAM OF STUDY

Associate in Arts in Geography for Transfer A.A.-T Degree for Transfer

The Associate in Arts in Geography for Transfer (AA-T) prepares students to move into a curriculum at a 4-year institution leading to a baccalaureate degree in Geography. Please consult a counselor regarding specific course requirements for your transfer institution. Completion of the AA-T degree also provides guaranteed admission with junior status to the CSU system, along with priority admission to the local CSU, Fullerton, in the Geography major. See page __**__ for a list of additional requirements for all Associate in Arts for the Geography major. See page __**__ for a list of additional requirements for all Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T) degrees. Upon completion of the AA-T in Geography, students will have an understanding of both the breadth and depth of the spatial perspective that is central to geographic study. This knowledge will be grounded in the comprehension of geographic principles, concepts, ideas, theories, research, terminology, and relationships. Students will also have the capacity to write and think in a critical and analytical way about issues pertaining to earth surface study, human/environment interaction and impact, and local, regional, and global relationships and associations.

Required Core (6 units)		Units

PROGRAM OF STUDY

Program Title: Associate in Arts in Geography for Transfer	
Program Code: sac.geog.aat	
Proposal Types:	Program Modification
Justification for Proposal: The accompanying proposal is based upon the consideration of the need to help with a seamless transition to the CSU system for the geography major. Courses are aligned to fulfill the AA-T degree in Geography. These courses are consistent with the current standards for junior-level transfer students in geography. The purpose of the proposal is to align the Geography Transfer Model Curriculum as well as the AA-T criteria in order for students to benefit from CSU admissions guarantees.	
Curriculum and Instruction Council Approval Date: 12/03/2012

SANTA ANA COLLEGE PROGRAM OF STUDY

Geography Degree A.A. Degree

The associate degree curriculum in geography provides students with
an interdisciplinary background for entry into a curriculum at a four-year
institution leading to a baccalaureate degree with career opportunities in
a wide range of jobs in government, such as Bureau of Census, C.I.A.,
D.E.A., U.S.G.S., Department of Immigration and Naturalization,
Department of State; and in private industry, such as planning
market research, land use analysis, transportation, travel and
tourism, and education.

Major requirements for the associate in arts degree:
