

Facilities Update

3/15/2016

- Received 287 work orders. 156 completed, 111 pending and the balance open.
- Prepared for KinderCaminata and the open house. Went as well as can be expected.
- Assisting with the coordination of the Village and CP projects. Lots of construction and traffic issues. Will continue to fight through it.
- LA Kiss on site for the season. Prepared field as per head coaches requirements and they are happy.
- Having an issue with the doors on campus in buildings H, R and S. Have solicited quotes to get replaced.
- Still actively working on clean room installation in H building.
- Scheduling A214, engineering lab renovation for spring break.
- Coordinated continuing accreditation efforts with CDC. Seems like they passed but have not received final word.
- Getting memorial garden ready for May dedication. Starting to look presentable again. Still need to purchase additional plants as per recommendations. Will install as soon as possible.
- Working with FM to schedule projects over the summer. Roofing and paint are the main projects going along with the repair to the gym floor.
