The **SLAM Pathway** is designed for students who will take Statistics or Liberal Arts Math, or who plan to teach in elementary schools.

The **BSTEM Pathway** is designed for students planning to major in Business, Science, Technology, Engineering, or Mathematics.

* Both Pathways? Some college programs may require a course in each pathway. In this instance, a student should enroll in MATH 084 because successful completion of MATH 084 will also allow a student into MATH 105, MATH 204, and MATH 219.

* Switching Pathways? Successful completion of MATH 084 will also allow a student into MATH 105, MATH 204, and MATH 219. However, a student must successfully complete MATH 083 and MATH 083BR Bridge to BSTEM Math Pathway in order to take MATH 140.

Note: Where a student places in the sequence will depend upon previous math background and placement test scores. Check prerequisites for all courses. Students planning to transfer to a four-year school should work carefully with a counselor and the catalog of the school of transfer. A college major should be chosen by the start of MATH 083/084 to ensure enrollment in the most appropriate sequence.

**EFFECTIVE FALL 2018.**
