Education Status Summary Report - Parameter Selection Area

Select State-District-College: | Select District-College: | Select Term: |

Please note: The Chancellor's Office provides access to the DataMart primarily to assist colleges for state and system accountability purposes. These data submissions represent a very specific set of processes that have surfaced known issues with any metric related to headcount as the system shifted course delivery formats to ensure the continuation of instruction during the pandemic. The Chancellor's Office is working to resolve this issue with internal and external stakeholders as soon as possible. In the meantime, research or reporting using this data for terms starting with Spring 2020 is not currently supported and is not recommended.

Statewide results for the most recent term should not be considered complete until all districts have submitted data.
