

To date each Standard Team has submitted at least one draft and has received comments on that draft. With this in mind, Bonnie will be conducting further reviews of the drafts received by January 17, 2014. Then, we will schedule meetings with each team to further verify the accuracy of the content and provide guidance on revising the actionable improvement plans, as appropriate. Please confer with your Standard Team members to determine what you need from us in order to complete your section of the report.

Please write your Standard number II C

What challenges are you facing in collecting data to support your claims about SAC's effectiveness as related to your Standard?

Not many challenges, but still need to work w/ Math Center, SCE, & Academic Computing Center to gather evidence. Also - Learning Center evidence is still coming in.

What questions do you have about completing the writing for your Standard?

None.

Are there evidentiary documents you are having difficulty finding?

Not really. Just need to follow through on the evidence that is required.

Please write your Standard number II B

What challenges are you facing in collecting data to support your claims about SAC's effectiveness as related to your Standard?

Ensuring that every statement of fact in the narrative has identified evidence.

What questions do you have about completing the writing for your Standard?

We now need to take time to compare 2008, 2011 with current draft.
Need to order our evidence properly.

Are there evidentiary documents you are having difficulty finding?

If we're still responsible for writing District Recommendation 2 (Monica and Lela), we need more information. Standard II B is not referenced in this District Recommendation.

To date each Standard Team has submitted at least one draft and has received comments on that draft. With this in mind, Bonnie will be conducting further reviews of the drafts received by January 17, 2014. Then, we will schedule meetings with each team to further verify the accuracy of the content and provide guidance on revising the actionable improvement plans, as appropriate. Please confer with your Standard Team members to determine what you need from us in order to complete your section of the report.

Please write your Standard number 1A & 1B

What challenges are you facing in collecting data to support your claims about SAC's effectiveness as related to your Standard?

Not all documents have been updated along the time lines that have been identified.

What questions do you have about completing the writing for your Standard?

We are looking forward to the feedback for our 1/17 draft and our meetings so that we can identify gaps and additional evidence that we need.

Are there evidentiary documents you are having difficulty finding?

To date each Standard Team has submitted at least one draft and has received comments on that draft. With this in mind, Bonnie will be conducting further reviews of the drafts received by January 17, 2014. Then, we will schedule meetings with each team to further verify the accuracy of the content and provide guidance on revising the actionable improvement plans, as appropriate. Please confer with your Standard Team members to determine what you need from us in order to complete your section of the report.

Please write your Standard number 1A

What challenges are you facing in collecting data to support your claims about SAC's effectiveness as related to your Standard?

No real issues particularly with collecting data. It is just validating that the data obtained is reflective of meeting the standard. In other words, does the data succinctly address what the standard is asking.

What questions do you have about completing the writing for your Standard? My greatest concern is referring to evidence in the document. For example, when referring to student services / programs that assist students to meet the mission should the programs be referred to as ^{to} where I can find them electronically (on website), catalog, ^{or} actual physical location on campus? Do we need the exact "link" noted in the insertions? If many areas of support for this part is needed then all pieces of evidence can be defined.

Are there evidentiary documents you are having difficulty finding?
College Council Minutes - I may have found!
