FALL PREVENTION

More than 1.6 million older Americans go to the emergency room each year for fall-related injuries. Falls are the leading cause of injury-related deaths among people over 65 years old. Falls account for 87% of all fractures in older adults. Hip fractures result in more hospital admissions than any other injury. Don't let this be you! Class is lead by a wonderful caring instructor who guides students through activities to improve balance, mobility, and the techniques proven to help seniors prevent falls. The exercises are simple, safe, and effective. The sooner you learn how to prevent falls, the less likely you'll be to have a serious fall! Class size is limited; don't miss this opportunity to reduce your risk of a fall!
