

CONSTRUCTION ALERT

- Date:** April 26, 2019
- What:** Signage/Wayfinding
- When:** May 3, 2019
- Where:** Santa Ana College – North Side of Building D
- Work Hours:** 7:00 A.M. – 5:00 P.M.

Activities:

On Friday, May 3, 2019, the contractor will be installing two additional building letter mock-ups for signage near the top northwest and northeast corners of Building D. This is a test of sample building lettering colors for a future signage and wayfinding project. The attached campus map indicates the location of where the equipment will be dropped off and where the installation will occur. There are two work zones noted on the map and the areas will be coned off while the boom lift is in operation. Future new building signs and monument signs to be installed campus-wide will improve navigation for students and visitors and develop a unified standard for signage. This project is part of an effort to improve accessibility campus-wide.

If you have any concerns or questions, please contact David Gonzales at (714) 480-7532 (office), (213) 604-4167 (cell), or via email at FacilitiesPM@rsccd.edu.
