

CONSTRUCTION ALERT

- Date:** March 2, 2020
- What:** Science Center Fire Alarm and State Elevator Testing
- When:** 03/03/2020 and 03/04/2020
- Where:** Santa Ana College
- Work Hours:** 7:00 A.M. – 3:00 P.M.

Activities:

The new Science Center building will be undergoing testing of the elevator and fire alarm system beginning on Tuesday, March 3rd and Wednesday, March 4th. The hours of testing will occur from 7:00 A.M. through 3:00 P.M. During this time, you may hear sporadic audible alarms (horn sounds) beeping from the Science Center building as the elevator and fire alarm devices are being tested by the contractor to meet state required inspection tests.

In addition to the sporadic beeps and alarms, you may hear a recorded message stating "May I have your attention please, a fire has been recorded in the building. Please leave the building by the nearest exit." This is an audio evacuation test only for the new Science Center building.

These tests are required to ensure the fire alarm devices and announcements within the building are operable. This testing will not affect other buildings on campus or the existing campus fire alarm system.

If you have any concerns or questions, please contact Rudy Delgadillo at (818) 294-5496 or via e-mail at RDelgadillo@bernards.com.
