<p><b>EEO/Diversity Workshop: Hiring the Best while Developing Diversity in the Workforce</b></p>	<p>The hiring process in community colleges is controlled largely by statutory and constitutional law, as well as a set of highly detailed regulatory procedures. In particular, screening and selection committees must be familiar with numerous legal requirements and District Policies and Procedures. These constitutional, statutory, and regulatory mandates create two competing legal obligations: the mandated commitment to diversity on the one hand and the prohibition against discrimination on the other. The challenge for community colleges now is navigating the balancing act that satisfies both these mandates. This training will provide a comprehensive guide to diversity in community colleges. The training discusses: (1) the legal backdrop to diversity; (2) the value of diversity in community colleges; (3) hiring procedures and strategies; and (4) best practices for screening committees.
