SAC Professional Development utilizes research in education and learning science to offer training that guides behavioral change in employees across campus, ultimately, impacting the learning experiences of all Santa Ana College students and ensuring the four pillars are being addressed, expanded upon, and implemented. Professional Development training supports initiatives that:

- 1. Clarify the path.
- 2. Enter the path.
- 3. Stay on the path.
- 4. Ensure students are learning.

Professional Development Plan Evaluation

The two-year plan has been developed to establish a foundation for activity and membership. The plan and budget will be evaluated each year during the final committee meeting of the fall semester with the goal of identifying successes, opportunities for growth, issues and budget needs that may need to be addressed and included in either an update or generation of the next two-year plan.
