Updates

- **Cash for Credit** - Relaunching this college initiative for students enrolled in noncredit and credit Spring courses. Reviewing the data since inception Spring '22.
- **Student Engagement Platforms** - Student Services is exploring a singular platform to support chatbot, live chat and text as we expand virtual student support.
- **Guided Pathways (GP) 2.0 Summit** - 98 SAC leaders participated in the summit to strategize SAC's vision for GP 2.0.

A promotional graphic for Santa Ana College's 'Cash for Credit' program. The graphic features the college's logo in the top left, which includes a stylized building with a red sun. Below the logo, the text reads 'SANTA ANA COLLEGE' and 'Classes Start Feb. 6'. The central focus is a photograph of two smiling students, a young woman with glasses and a young man with curly hair. Below the photo, the text 'ENROLL NOW!' is written in large, bold, red letters. At the bottom, the phrase 'Earn CASH For Credit' is displayed, with 'CASH' in large white letters and 'For Credit' in a smaller, italicized font. Below this, it says 'By taking 6-12 credits at SAC this spring semester'.

Proposal by Dahlia Vu was Selected for Award

Seeding Strategies (II) to Close the Calculus Equity Gap, has been selected to receive a California Education Learning Lab award

President's Office
Santa Anna College
1530 W. 17th Street
Santa Ana, CA 92706-3398

Dear Dr. Nery,

We are pleased to inform you that a grant proposal submitted by your college in response to our Request for Proposals, *Seeding Strategies (II) to Close the Calculus Equity Gap*, has been selected to receive a California Education Learning Lab award of up to \$100,000.

This funding opportunity was designed to support department-level efforts to improve learning outcomes and close equity gaps in calculus course sequences. The **Closing Equity Gaps in Calculus with OER and Embedded Support** project, led by Math Department Chair Dahlia Vu was selected for a Seeding Strategies II grant based on the recommendations of external reviewers with relevant subject matter expertise.

Santa Ana College should be proud of the proposal that math faculty put forward. Under Chair Vu's leadership, the project proposes to redesign a calculus course with embedded support, including reviewing prerequisite skills and tutors, to specifically benefit those who struggle in first-year calculus. The project will also create Open Educational Resources materials grounded in culturally responsive teaching and interactive teaching activities, ultimately providing students with accessible, enhanced learning experiences. It is anticipated that the new curriculum and related support will close equity gaps in STEM pathways.
