

Santa Ana College
Distance Education: Participation, Demographics and Course Success

Compiled by the RSCCD Research Department, March 2012

Santa Ana College offers over 100 distance education sections each semester, predominately via online delivery. As this type of learning gains in popularity, it is important to continually assess enrollments and outcomes so that we may remain current with the course variety and content needs of our community and the students we serve. This publication offers five semesters (Fall 2009 to Fall 2011) of online course offering at SAC as compared to the traditional classroom delivery, including number of sections offered, student demographics, course success and retention.

Summary of Findings

Distance Education Offerings

Overall, the number of sections offered in distance education has remained steady since Fall 2009 (111 to 118). Starting in Fall 2010, distance education classes were more defined as to the type of delivery (web based, hybrid or televiaion); therefore, data is broken down even further for this purpose.

Santa Ana College
Distance Education Sections Offered, Headcount, and Enrollments

Semester	# Sections Offered				Headcount (unduplicated)			Enrollments in classes			
	WEB	HYBRID	TV	TOTAL	WEB	HYBRID	TV	WEB	HYBRID	TV	TOTAL

Demographics

- Although the number of television courses slightly decreased, the enrollment increased 22% since Fall 2009.
- The largest group of students who enroll in television and web-based classes are young; more than half of all distance education students at SAC are 25 years of age or younger.
- More than half (54% to 59%) of the students who enroll in distance education classes are female.
- Distance education students at SAC are ethnically representative of the student body at large.

Enrollments, Course Success, Retention

Distance Education “program,” at best, is an offering of a variety of sections in a variety of subject areas. Therefore, it is challenging to compare one mode of teaching to another based on the grades given by one teacher, one section.

- Across all semesters of study (Fall 2011, Spring 2011, Fall 2010, Spring 2010 and Fall 2009), success rates in distance education classes are lower than those in traditional classrooms (34% to 58% vs. 60% to 63%).
- Television classes have very low success rates (34% to 40%) and retention rates (63% to 70%) versus traditional delivery mode (60% to 63% and 79% to 82% respectively).
- Detailed success and retention rates (by subject/course by semester) are included below.
