Instructions For Completing CSU – General Education Breadth Certification Petition Form

1. For each area, circle courses taken at Santa Ana College, list courses taken at other colleges, or list name of exam if requirement was met through an Advanced Placement test (minimum score of 3), International Baccalaureate, or CLEP test. Place check mark in *COMPLETED* column on right side.
2. A Credit or Pass is acceptable providing either is equivalent to a grade of C or higher. A community college transcript or catalog must reflect this policy
3. Certification of coursework from other colleges will be granted to students whose last community college of attendance prior to transfer is Santa Ana.
4. Although not part of CSU-GE Breadth, Santa Ana College may certify completion of the CSU graduation requirement in *U.S. History, Constitution and American Ideals*. Courses used to meet this requirement may also be used to satisfy CSU-GE Breadth requirements. Circle the course(s) used to meet the requirement and place a check mark on the line next to *COMPLETED*.
5. It is generally recommended that students complete all CSU General Education-Breadth requirements prior to transfer. In some instances however students may benefit from **partial certification**. To qualify for partial (subject area) certification a student must complete no fewer than the minimum number of semester units required in a given area: Area A (9 units), Area B (9 units), Area C (9 units), Area D (9 units), Area E (3 units).

Please check the box at the top of the front page of this petition if you are requesting partial certification. At the bottom of the page indicate for which area(s) (A, B, C, D, E). Completion of all of Areas A and B4 is usually necessary for transfer admission. Full certification is also required to earn a Santa Ana College Certificate of Achievement, as well as an Associate Degree for Transfer. A student can be granted full certification OR partial certification but NOT BOTH. Please see a counselor for additional information and advisement.

6. Students earning an Associate Degree for Transfer (ADT) in Biology must complete **CSU GE Breadth for STEM** as outlined below.

Complete the following courses before transfer:

- All courses in Areas A, B, and E; and
- One course in Area C1 Arts and one course in Area C2 Humanities; and
- Two courses in Area D from two different disciplines.

Complete the following courses after transfer:

- One remaining lower-division GE course in Area C*;
and
- One remaining lower-division GE course in Area D.*

*These deferred lower division courses must be replaced with calculus and/or science courses required by the major before transfer.

CSU GE Breadth for STEM completion does not qualify students for the CSU-GE Certificate of Achievement.

7. Take completed form to the office of Admissions and Records. Please consult the class schedule or Counseling for deadline information.
