

VETERANS
UPWARD BOUND
SANTA ANA COLLEGE

Veterans Only!

Santa Ana College proudly announces the new Veterans Upward Bound program at Santa Ana College. We are one of only two Veterans Upward Bound programs in the state of California!

The VUB is a pre-college program that serves veterans who need to strengthen their academic skills in the core subject areas prior to enrolling in a post-secondary program at a college or university. The VUB program offers a comprehensive academic skills development program that will ensure veterans are academically prepared to enroll in a postsecondary institution.

The VUB provides instructional workshops, tutoring, counseling, advisement and case management for veterans. Through our partnership with the Veterans Resource Center, veterans will also receive support and peer mentoring from service veterans who are familiar with the transition from the Armed Forces to civilian life.

Eligible veterans will also participate in career exploration, workshops and university research to select the best college or university most suitable for their field of study upon completing the Veterans Upward Bound curriculum.

Campus tours to local universities and special events are also offered to veterans and their families so that they can share in their veteran's academic journey of success.

The Veterans Upward Bound program is committed to your academic success!
