6. The IE&A committee will update the *Strategic Plan* annually. Upon completion of the first eight-year cycle of the Strategic Plan, IE&A will conduct a thorough evaluation which it will forward to College Council. Utilizing the *Strategic Plan with Progress on Goals* and the aggregate program review reports (Academic, Student Services, Administrative Services, President’s cabinet), the IE&A committee will make recommendations to College Council. In 2015, a thorough college-wide evaluation will be conducted. As the *Strategic Plan* will be continually updated and revised, the evaluation will include efficacy of format. In 2015, a thorough review will be conducted utilizing the BOT Vision and Goals as a guide for the SAC Mission Statement as well as the Vision Themes, which serve as the general heading of each section of the *Strategic Plan*. The SAC Mission Statement undergoes annual review apart from Strategic Plan Review, and remains in alignment with the Board of Trustees Vision Statement and Goals on an ongoing basis.

7. In 2008-2009, under the aegis of IE&A, SAC will engage in a college-wide dialogue to evaluate the effectiveness of the *Strategic Plan* and to determine how that plan and its processes have affected the various departments, disciplines, programs and student learning. Under the aegis of IE&A, a survey will be created and sent to all governance committees, President’s Cabinet, College Council and the Academic Senate, IE&A will aggregate the results and provide them to the college community via the president of the college and the chairs of the governance committees. The *Strategic Plan* was updated S08, S09, S10 and S11. At that time collegial dialogue occurred at all levels in workgroups as well as governance groups, and the Strategic Plan was revised as needed. Data was collected as needed.

It was determined by the IE&A committee that discussion at the governance level, including College Council and the Academic Senate would be more beneficial than a survey. At least one IE&A member serves on all governance groups, President’s Cabinet, the Academic Senate, and CSEA.

The *Strategic Plan Update*, in concert with the IE&A
End-of-Year Report is also included in the master Plan Update each spring.

The Vision Themes serve as heading for each major section of the Strategic Plan.

The Santa Ana College Annual Report has also been organized by Vision theme with administrative areas as sub-themes. The Vision Themes also are posted on agendas of governance committees.

**Standard IIIB:**

1. College Council and district administration will explore the possibility of another bond to carry out the facility plans that were established by *Measure E* and the failed *Measure O*.  
   - After consultation with the president of SCC, the president of SAC will work with the chancellor in any way deemed appropriate by the BOT and the chancellor to explore the possibility of another bond measure. Since this is not a SAC-only initiative, timelines need to be established at the district level.

2. President’s Cabinet, the Budget Committee and the RSCCD will explore other funding options for maintenance operations and custodial services.  
   - Fall 2010 the Administrative Services dept. along with the maintenance staff participated in a seminar that focused on balancing work and home.  
   - The vice president of administrative services and the Interim Plant Manager are developing a scheduled maintenance plan that includes implementation and regular monitoring to ensure the vital infrastructure system remain fully
The fire alarm system was the first system to be thoroughly evaluated. Administrative services personnel worked with the vendor to validate monitoring, testing, and ongoing maintenance at all three sites. The vendor is also providing understandable documentation listing deficiencies after each test. Corrections are being made on a timely basis. Preventative maintenance plans need to be developed for backup generators, fire sprinklers, emergency lights, fire water lines, elevators, the energy management system, high voltage, plumbing, gas, heating, ventilation, air conditioning, sewer systems, storm drains, and irrigation systems. Restoring the Director position is essential to the full implementation of a successful preventative maintenance program.

3. The vice president of administrative services and the M&O supervisor will establish, implement and maintain a plan which itemizes the scheduled maintenance plan.

The Facilities Committee to consult with district Planning Department to develop a process to clearly identify the total cost of ownership of major capital outlay and construction of facilities at the college.

2009

This is an on-going process. The Director of Institutional Services position was eliminated in Oct 2008, and the Night Custodial Supervisor position became vacant when that manager assumed the Interim Plant Manager position in January 2010. Even with two managers positions vacant, a preventative maintenance schedule has been established with for the fire
alarms, which has been a major problem on this campus in the past. All devices at all three sites are tested twice a year, systems are monitored 24 hours a day, and we have maintenance contracts. Similar maintenance schedules need to be developed for elevators, high voltage, fire sprinklers, fire hydrants, backup generators, storm drains, domestic water, sewer, gas, fire water lines, HVAC, irrigation, and energy management systems.

4. The Academic Senate will appoint a DSPS faculty member to the Facilities Committee and the Safety and Security Committee as a representative. This appointment will also be added to the *Facilities Master Plan* and the re-established Safety and Security Committee.

co-chair requirements with the full committee. Also, the Environmental Workgroup was moved under the Campus Facilities Committee in Fall 2010.

7. SAC College Council and the RSCCD will explore opportunities for the funding of facilities, equipment and supplies.

To evaluate its planning processes, including integration of Technology, Staffing, and Facilities Master Plans to ensure budget is used as a planning tool for budget allocation to fulfill the college’s Strategic Plan.

The president of the college will discuss with the chancellor ways in which this recommendation may be handled spring 2009. In addition BAPR will develop a planning workgroup to investigate the links between integrated planning and budget to commence spring 2009.

Non-Resident tuition provides the campus with between $125,000 and $150,000 per year for capital projects. According to the state’s budget and accounting manual, capital project funds can be used for improvements or extensions to the life of existing capital facilities, including major repair and remodeling projects, initial equipping of buildings and significant capital equipment purchases. During the last year capital projects that have been funded with non-resident tuition include: asbestos abatement, major plumbing repairs, storm drain connections, and high voltage maintenance.

Measure E funds are being used for major sewer line improvements this winter.

SAC will be receiving $377,352 in one-time Mandated Costs funds that will be included in our allocation at P1, the end of February 2011. This “Mandated Cost payment” from the state is to offset outstanding mandated costs claims from prior years. This was included in
AB1610 which was a trailer bill in the 2010-11 state budget. These are one-time funds that are unrestricted and based on 2009-2010 P2 FTES at a rate of $17.78 per FTES.

The BAPR recommendation to the Chancellor, and he agreed, was to split these one-time unrestricted funds 70% for SAC and 30% for SCC. This money is to be spent in 2010-2011. Chancellor’s Cabinet is suggesting that these funds be used for facilities related one-time costs. To that end, the vice-presidents have submitted suggested uses to the President’s office to be compiled and then discussed at Chancellor’s Cabinet.

| 8. The president of SAC will request that RSCCD administration identify a formula for “the total cost of ownership” concept, which is then made explicit. | To evaluate its planning processes, including integration of Technology, Staffing, and Facilities Master Plans to ensure budget is used as a planning tool for budget allocation to fulfill the college’s Strategic Plan. | The president of the college will discuss with the chancellor ways in which this recommendation may be handled spring 2009. In addition BAPR will develop a planning workgroup to investigate the links between integrated planning and budget to commence spring 2009. | BAPR WG members are discussing ways to integrate planning and budgeting. The foremost change is in the budget model that is expected to become the SB361 Revenue Allocation model. SB361 became law in 2006 replacing funding parameters in the California Education Code. The goal of SB 361 was to equalize funding for credit FTES, bring simplicity to the funding formula, and provide enhanced funding for qualifying noncredit FTES. |
The State Chancellor's Office prepares an Exhibit C document for every district within the California Community College system. To develop a simulation, District Fiscal Services used the Exhibit C document for the Second 2009-10 Principal Apportionment that was released on June 17, 2010.

Exhibit C shows the following base funding amounts:
- FTES > 20,000 = $4,428,727 (SAC)
- FTES < 10,000 = $3,321,545 (SCC)

Adding the factors into the equation, and subtracting out current year expenses, shows that SAC would receive $2m more and SCC would receive ($1m) less. SCC will be funded at a higher rate when they reach 10k FTES (now at 8800). There will be a transition period to allow SCC to adjust.

The amount District Operations will receive has yet to be determined. Further discussions before implementation will establish initial guidelines for evaluating District Operations and address how often the district amount should be evaluated.

Should this new allocation method be adopted, each site
will receive a lump sum amount and be responsible for developing and managing their budgets. This new model will end the discussions about fixed and variable costs associated with the current Budget Allocation Model.

The District Office will no longer take care of things like COLA, Growth, and benefit increases. Each site will have to factor these amounts into their budgets each year. Each cost center would have a separate reserve (likely at a percentage mandated by the District with an additional prudent reserve established by each college).

| 9. College Council and RSCCD administration will explore the possibility of another bond to carry out the facility plans that were established by Measure E. | After consultation with the president of SCC, the president of SAC will work with the chancellor in any way deemed appropriate by the BOT and the chancellor to explore the possibility of another bond measure.
