**RATIONALE FOR ADDITIONS/REVISIONS/DELETIONS TO
INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM
(IGETC) (PLAN C)**

1. Please write a brief narrative statement as to why this addition/revision/deletion is being proposed.

Math 141 (College Algebra with Support) and Math 221 (Statistics and Probability with Support) were created by the Santa Ana College Math Department to meet the needs of our students as mandated by AB 705. Their counter parts, Math 140 (College Algebra) and Math 219 (Statistics and Probability), have already been approved for plan C. Thus, it is logical to also include Math 141 and Math 221, since they cover the same material as Math 140 and Math 219, respectively.

2. Have all affected departments been notified and/or consulted?
