

## CVC Students & Single-Sign On

Some students enrolled through the CVC Exchange have been running into issues using tools such as Respondus LockDown Browser or the Nealley Library's databases for example. This is because they access your SAC course through their home college's Canvas instance and may not know their Single-Sign On username and/or password.

Don't worry! This doesn't mean you cannot use these important resources.

### Username & Password

Students can access their SAC username and password using the **Retrieve Username or Reset Password** link on Single Sign-On log in page or you can provide the [RSCCD Password Reset](#).
