ABOUT THIS DIRECTORY

Support Black-owned businesses in Orange County with Santa Ana College's very own Green Book, a digital and physical directory created by members of the Black History Month Planning Committee in collaboration with the Journalism and Media Studies Department.

1960 edition

Inspired by the *Negro Travelers' Green Book* — published annually by New York City mailman Victor H. Green during the Jim Crow era as an essential guide for African American and other non-white travelers — this directory includes a list of local Black-owned retail, restaurants, professionals, experiences and more.

This directory is not meant to be comprehensive, but every effort was made to identify, verify and include as many entries as possible.

Thank you to everyone who has published articles, databases and guides to Black-owned OC businesses, including the Instagram account @black__stylist__circle. Special thanks to the Young Black Professionals of Orange County, whose Google Spreadsheet “OC Black Book” was also an original inspiration for this printed community resource.
